CONTENTS OF VOLUME 341

August 1983

HUANG C.L.-H. Time domain spectroscopy of the membrane capacitance in frog skeletal muscle. 1

BERTHON Brigitte, BURGESS Gillian M., CAPIOD T., CLARET M. & POGGIOLI Josiane Mechanism of action of noradrenaline on the sodium–potassium pump in isolated rat liver cells. 25

BOSTOCK H., SEARS T.A. & SHERRATT R.M. The spatial distribution of excitability and membrane current in normal and demyelinated mammalian nerve fibres. 41

BOSTOCK H. The strength–duration relationship for excitation of myelinated nerve: computed dependence on membrane parameters. 59

KATOVICH Michael J. & SIMPKINS James W. Effects of chronic hyperprolactinaemia on experimentally induced thirsts in male rats. 75

ARDEN G.B. & VAEGAN Electroretinograms evoked in man by local uniform or patterned stimulation. 85

DEKIN Michael S. Permeability changes induced by L-glutamate at the crayfish neuromuscular junction. 105

DEKIN Michael S. & EDWARDS Charles Voltage-dependent drug blockade of L-glutamate activated channels of the crayfish. 127

COLE J.D. & GORDON G. Timing of corticofugal actions on the gracile and cuneate nuclei of the cat. 139

ITO S. Time course of release of catecholamine and other granular contents from perifused adrenal chromaffin cells of guinea-pig. 153

LEWIS S.A. & WILLS N.K. Apical membrane permeability and kinetic properties of the sodium pump in rabbit urinary bladder. 169

HATA Fumiaki, ISHIDA Hajime, KAGAWA Kimiya, KONDO Etsuo, KONDO Shigeru & NOGUCHI Yutaka β-adrenoceptor alterations coupled with secretory response in rat parotid tissue. 185

DECKTOR D.L. & WEEMS W.A. An intracellular characterization of neurones and neural connexions within the left coeliac ganglion of cats. 197

DULHUNTY Angela F. & GAGE Peter W. Asymmetrical charge movement in slow- and fast-twitch mammalian muscle fibres in normal and paraplegic rats. 213

AL-OMAR Azzawi S. & SHIRLEY D.G. The effect of vasopressin on renal blood flow and its distribution in the rat. 233

AKAIKE Norio, HIRATA Akira, KIYOHARA Toshikazu & OYAMA Yasuo Neural regulation on the active sodium–potassium transport in hypokalaemic rat skeletal muscles. 245

KUFFLER S.W. & SEJNOWSKI T.J. Peptidergic and muscarinic excitation at amphibian sympathetic synapses. 257

ENROTH-CUGELL Christina, ROBSON J.G., SCHWEITZER-TONG D.E. & WATSON A.B. Spatio-temporal interactions in cat retinal ganglion cells showing linear spatal summation. 279

PEICHL Leo & WÄSSLE Heinz The structural correlate of the receptive field centre of α ganglion cells in the cat retina. 309

LEDERER W.J. & NELSON M.T. Effects of extracellular sodium on calcium efflux and membrane current in single muscle cells from the barnacle. 325

WALOGA Geraldine Effects of calcium and guanosine-3′:5′-cyclic-monophosphoric acid on receptor potentials of toad rods. 341

JANCSÓ G. & SUCH G. Effects of capsaicin applied perineurally to the vagus nerve on cardiovascular and respiratory functions in the cat. 359

KATOH K., NAKASATO M., NISHIYAMA A. & SAKAI M. Activation of potassium transport induced by secretagogues in superfused submaxillary gland segments of rat and mouse. 371

FETZ E.E. & GUSTAFSSON B. Relation between shapes of post-synaptic potentials and changes in firing probability of cat motoneurones. 387

HAYDON D.A. & URBAN B.W. The action of alcohols and other non-ionic surface active substances on the sodium current of the squid giant axon. 411

HAYDON D.A. & URBAN B.W. The effects of some inhalation anaesthetics on the sodium current of the squid giant axon. 429

DAUNCEY M.J., INGRAM D.L., JAMES P.S. & SMITH M.W. Modification by diet and environmental temperature of enterocyte function in piglet intestine. 441

CHEN M.H., JOFFE S.N., MAGEE D.F., MURPHY R.F. & NARUSE S. Cyclic changes of plasma pancreatic polypeptide and pancreatic secretion in fasting dogs. 453

CLEWLOW F., DAWES G.S., JOHNSTON Barbara M. & WALKER D.W. Changes in breathing, electrocortical and muscle activity in unanaesthetized fetal lambs with age. 463

CRAGG Patricia A. & DRYSDALE D.B. Interaction of hypoxia and hypercapnia on ventilation, tidal volume and respiratory frequency in the anaesthetized rat. 477

EISENBERG Robert S., MCCARTHY Richard T. & MILTON Richard L. Paralysis of frog skeletal muscle fibres by the calcium antagonist D-600. 495

KNEPEL W. & MEYER D.K. The effect of naloxone on vasopressin release from rat neurohypophysis incubated *in vitro*. 507

MCHALE N.G. & RODDIE I.C. The effect of intravenous adrenaline and noradrenaline infusion on peripheral lymph flow in the sheep. 517

LOPACHIN Richard M. & RUDY T.A. Sites and mechanism of action for the effects of intrathecal noradrenaline on thermoregulation in the rat. 527

FLATMAN Peter W. Sodium and potassium transport in ferret red cells. 545

KOVÁCS L. & SZŰCS G. Effect of caffeine on intramembrane charge movement and calcium transients in cut skeletal muscle fibres of the frog. 559

KOVÁCS L., SCHÜMPERLI R.A. & SZŰCS G. Comparison of birefringence signals and calcium transients in voltage-clamped cut skeletal muscle fibres of the frog. 579

JACOB T.J.C. Raised intracellular free calcium within the lens causes opacification and cellular uncoupling in the frog. 595

BOWMAN Anne & GILLESPIE J.S. Neurogenic vasodilatation in isolated bovine and canine penile arteries. 603

BLISS T.V.P., LANCASTER B. & WHEAL H.V. Long-term potentiation in commissural and Schaffer projections to hippocampal CA1 cells: an *in vivo* study in the rat. 617

CRUNELLI Vincenzo, FORDA Susan & KELLY John S. Blockade of amino acid-induced depolarizations and inhibition of excitatory post-synaptic potentials in rat dentate gyrus. 627

ANGEL Fabielle, Go V.L.W., SCHMALZ P.F. & SZURSZEWSKI J.H. Vasoactive intestinal peptide: a putative transmitter in the canine gastric muscularis mucosa. 641

BROWN D.A., DOCHERTY R.J. & HALLIWELL J.V. Chemical transmission in the rat interpeduncular nucleus *in vitro*. 655
